Now that the Shamrock has been launched here it remains for the New York Yacht Club to announce the acsailed off Sandy Hook, as in other years,

Sir Thomas then told that he was offered the golden eagle which was on board the old America when she went to England and won the cup over fifty years ago. He said he had received the ffer this morning in a letter from a man named Neeson.
"Isn't that a fine spirit," said Sir

Lipton speaking of the offer. "I have always found Americans anxious to me and treat me fine. Nothing I have asked for has ever been refused."

At the meeting to-day a plan of organization will be discussed and it is probable that temporary officers will be elected. Plans for the activities of the club are expected to feature the business of the meeting.

A club of this nature was first proposed for Columbia by Harry A. Fisher, '04, former graduate manager of atheletics on Morningside Heights. Fisher had all arrangements completed and was prevented by the war from so doing. His plan included an alumni organization into which members of the Varsity Club were to be taken to cooperate with the undergraduate club and with the Athletic Association in all matters per taining to athletics.

Herrmann yesterday sent Johnson another telegram asking him to advise him immediately when he expected to leave Chicago. Ban has a sore foot, a malady which is arousing much mirth at the Yankee offices. There it was suggested that Ban's foot has become sore from being in a frigid condition so long.

Garry had not received any answer from Johnson up to last night, but the Cincinnatian says he will stay here if there is any chance of the American League president joining him, as he thinks now is the time to clear up the haseball atmosphere.

May Shiff Franchise to Scranton. Newark did not seem to be particularly larry alarmed yesterday over the loss of its international League franchise, its clear of the American League franchise probably will be shifted to Scranton before the month is out, though Montreal also has made a strong bid for it.

When beloved "Tamarack" confines himself to descriptions of the wilds and wild life has all the springtime and all the summer pool. But that deliapful writer is at least disappointing when he employs most of his space in a defence of the perisisent anonymity of the firing squad which has been pop gunning the advocates of the Everett one deer law.

And I regretted to believs, as the ctrumstances seem to warrant, that he had allowed himself to drop into a partisan groove on a question of conservation. He insist that "Gov. Smith was poorly advised" on the deer bill. He seeks to place all the responsibility or credit for the new law at the doors of the Everett one the bill could come to the Governor for action it had to be passed by the Legislature, and as a matter of fact was passed with only six negative votes in both houses!

Yet, we find "White Birch," "Tamarack," "Balsam No. 2" et al forming a greenwood, clump which amuses itself and the mass of the people as well by ridiculing the Judgment and official action of the proposed club will be held to-day at noon in East Hall, the Student Activities Building, and all men now in the university who have won their varsity letter or who have captained a team in a colony of pseudonoms made the mistake of attempting to set it to words.

ASYOUWERE,

It is unlikely, however, that Newark will be left without baseball for any length of time. Perhaps a year or two without a league team may again make Newark ripe for Class AA baseball.

The Federal League blight put many minor leagues out of commission, but nowhere did it do as much damage to baseball property values as in Newark. Charley Ebbets, president of the Brooklyn team, yesterday wired from Springfield. Mass., where he is attending the minor league conference, that he has signed Joe Conlan, a semi-propitcher from Chicago. Joseph is a young fellow 21 years old, 5 feet 10 inches tail and weighs 160 pounds. Both the Giants and Cubs also were negotiating for the youngster's services.
